# Division Amazement

- Trace a path to the middle of the maze. You can pass through only if the remainder is 2 when you divide.

- Solve **only** the problem described.    **a.**  $2 \overline{)91}$     **b.**  $4 \overline{)58}$     **c.**  $8 \overline{)79}$

- The quotient has 2 digits.
- The remainder is greater than 1.
